SUMMARY OF QUALIFICATIONS

- Passionate full-stack developer with expertise in Next.js, React, and Flutter.
- Proven ability to build high-impact web and mobile applications with efficient backend integration.
- Regional programming competition champion with strong problem-solving and leadership skills.

EDUCATION

Visayas State University

Bachelor of Science in Computer Science

Baybay City, Leyte

2022 - Present

- Highest GPA: 1.143 (1st Sem, 2024-2025)
- Accumulative GPA: 1.379

TECHNICAL SKILLS

- **Frontend:** React, Next.js, Flutter, Tailwind CSS
- **Backend:** .NET, Firebase, Supabase, MySQL
- **Languages:** C/C++, C#, Python, Java, JavaScript, Dart, PHP
- **Tools:** Git, VS Code, RStudio, Jupyter

PROJECT EXPERIENCE

Eduvate Mentorship Application

Project Manager and Full-stack developer

Ongoing

Developed a cross-platform mobile application using Flutter with three interfaces: Admin, Mentor, and Mentee.

- Led frontend and backend development of the Mentee interface.
- Implemented a hybrid backend using Firebase and Supabase for real-time data management.

Mabolo Journaling Website

Full Stack Web Developer

April 2025

- Developed a journaling web application using Next.js and React for Mabolo dormitory.
- Integrated Firebase and Supabase for secure and efficient database handling.
- Deployed the app using Vercel to ensure fast and scalable hosting.

Viscan Stress Predictor

Frontend Web Developer and ML Integrator

October 2024 – December 2024

- Developed a feedforward neural network achieving 99% accuracy for stress prediction.
- Embedded the model into a React + Next.js web app for real-time stress prediction.

VSU-COPP

System Administrator and Backend Developer

August 2024 – December 2024

- Deployed a Programming contest platform for VSU-DCST based 100% on DOMJudge API.
- Configured Ubuntu server environments using Linux CLI tools and scripts.

Mabolo Dormitory Application

Software Developer

March 2024 – May 2024

- Developed a C# dormitory management system in one semester. Utilized OOP principles to create modular classes and implemented a MySQL database.
- Employed unit testing using MSTest and used Figma for UI design.

LEADERSHIP EXPERIENCE

Computer Science Students Society

Education Committee Head

September 2020 – May 2021

- Collaborated with fellow mentors to create supportive study groups.
- Facilitated a peer-to-peer learning experience leading to a 30% higher passing rate.
- Managed and analyzed mentor-mentee allocation for 107 mentees.

HONORS & INVOLVEMENT

- DOST JLSS 2024 Scholar
- Dean's Honor (2022); Consistent University Honor (2023 – 2024)
- *Champion, C Programming* – PSITE Eastern Visayas Coding Olympics 2024
- *Champion, CS Week Hackathon 2025* – Developed a C# desktop application in just 8 hours
- *Top 6, C Programming* – PSITE Eastern Visayas Coding Olympics 2023
- Certification for QSCP Lecture Series – Quantum Computing Society and One Quantum Philippines
- *Regional-Level Research Finalist & International Research Symposium Participant* – Represented in a symposium alongside researchers from five countries
